ADMIN. FACULTY & STAFF

This year we have been experimenting with a new approach to high school administration — the team concept. When I was appointed Principal by our Franciscan superiors, I soon became aware that a group of people are more likely to make wiser decisions than an individual and that I had to depend upon others to carry out policies and programs once the decisions were made.

So we put together an eight-man team that met weekly, and sometimes more often, to transact the business of Hales Franciscan High School. Each man represented a major area of responsibility and a different point of view. We often disagreed and discussed issues at great length before arriving at any decisions. Working together as a team is not easy, and each member had to grow and learn as we went along. We trust that Hales has grown because of our experience.

I truly appreciate the efforts and sacrifices made by all the administrators: Bro. Elric, Mr. Brown, Mr. Moffa, Fr. Randolph, Fr. Glenn, Bro. Leo and Fr. Terry. All of these men have made a contribution to Hales Franciscan that few will ever know.

Dear God,

May we become aware;
of our Christian dignity,
of our personal self-worth,
of our fellow human beings.

May we perceive our relationship
to you as God the Father
and as Christ our brother
and as the Living Spirit.

May we view every man as your
fellow gardener in the whole of creation,
as the precious gift of life to be cared for
by us:
Hales Spartans and
Black Men.

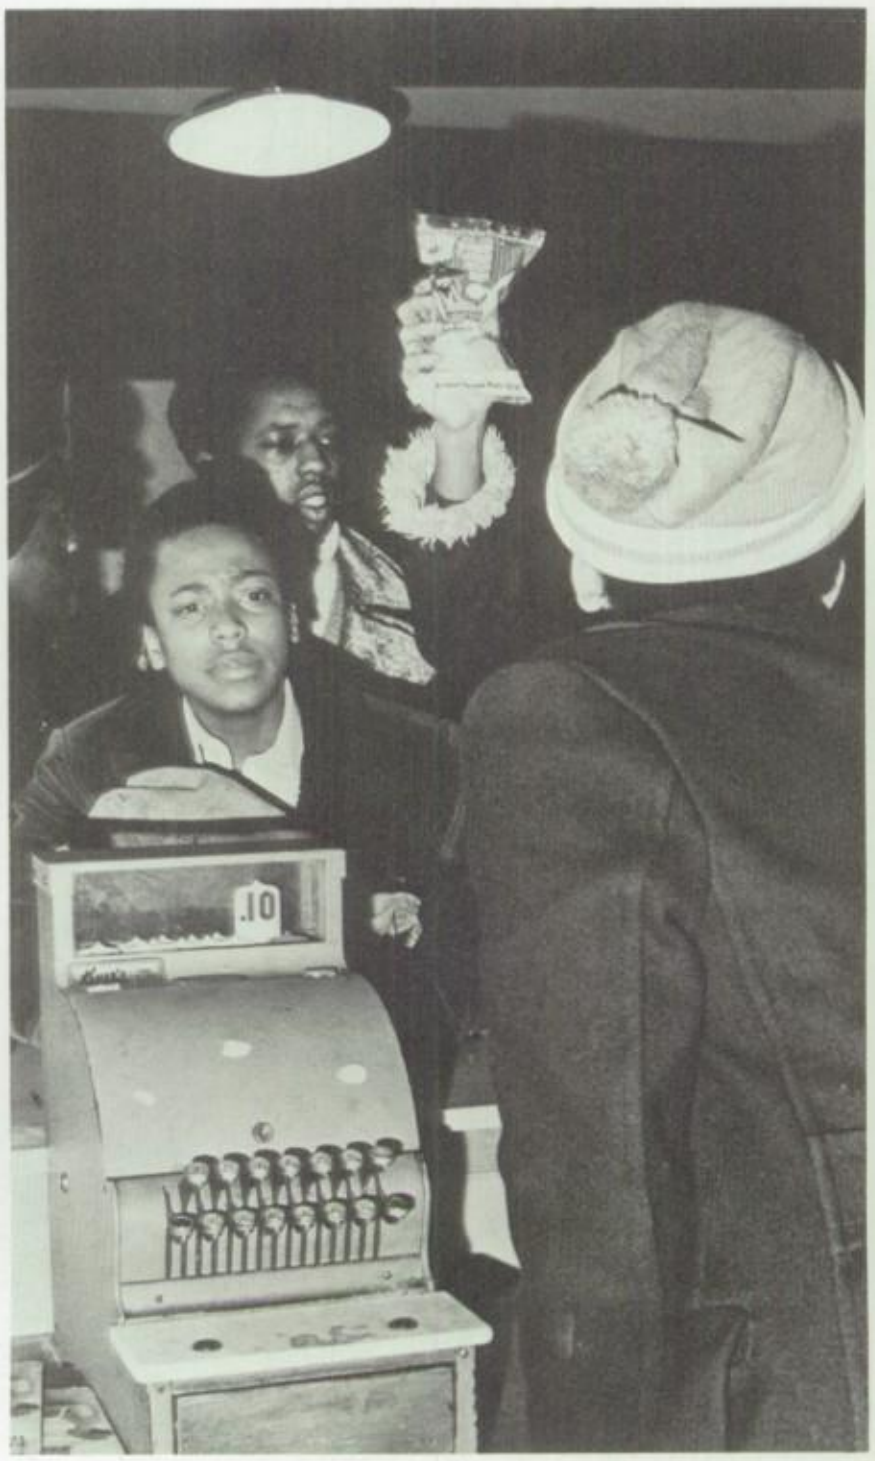
SPARTAN PARENTS



The parents of student of Hales Franciscan play an invaluable part in the proper functioning of Hales Franciscan. Without their generous help and undying dedicaton to Hales, this school would cease to be and become a mere building — a skeleton of an educational institution.

Special thanks goes to the Men's club for their help with the candy concession, basketball games, fund raising events and their dedication to Hales Franciscan's Motto: Unto Perfect Manhood.

Without the many hours of extra work from the officers of the Parent's Auxiliary, that club's support of the school would lack the strong leadership that it has.

STUDENT PHOTOGRAPHY OF HALES FRANCISCAN

DARREL HUNTER, sophomore, fulfills a portrait assignment using a delayed shutter release enabling him to be his own subject for this picture.

NORMAN JOHNSON, sophomore, captures ugliness as his subject while experimenting with camera angles.

MICHAEL ROPER, freshman, finds fascination with a Christmas tree and the reflections of light from its ornaments.

These photographs represent the first effort of student photographers here at Hales to express themselves in the photographic media. Students in Photography I are a cross-section of the Hales student body: Freshman through Seniors. Next year Photography I and Photography II, Expansion of the Photographic Media, will be offered. Students who complete both Photography classes are then eligible to become staff photographers for the Spartan Yearbook.

CHARLES RUSSELL, senior, clicks his shutter on a scene we are all familiar with — the long, cold walk from the B-building on a snowy morning.

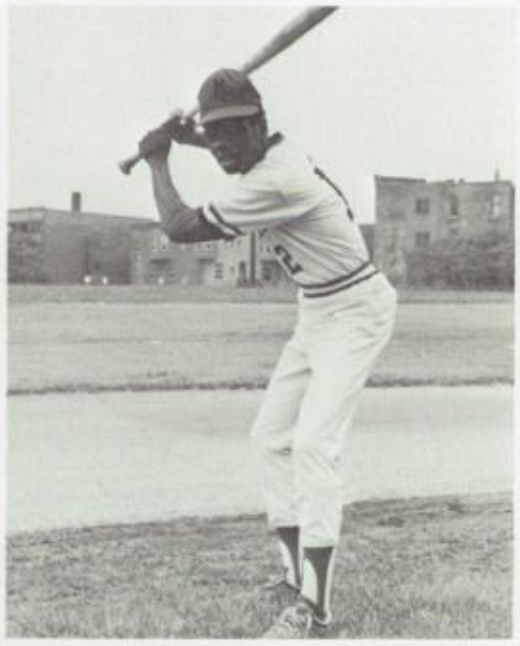
HALES FRANCISCAN BASEBALL '73



"And the beef is on . . ."

SPARTAN BASEBALL '73

The Spartan Baseball team showed great promise and should be a Catholic League contender in 1974. Coach Larry LaRosae had as many as 7 underclassmen in the lineup at one time this past season.

During 1973 the Spartans won 6 and lost 22 games. They also won a third place trophy in the 1st Annual Hales Baseball Tournament.

In 73 the Spartans were only out of four or five games while the rest were close. However, Lack of experience showed through during most games.

In '74, Hales will have its entire infield and four of its six-man pitching staff RETURNING. According to Coach LaRosae, the 1973 season was a year for gaining experience to be put to good use next year.

The '74 schedule will show such powerhouses as: Tuley, Mather, Kelly, Hubbard, Bogan, Tilden Tech, Gage Park, Schurz and Fenger. This is in addition to the already powerfully loaded Catholic League Schedule.
